HEDMAN®... Leaders in document processing equipment for 85 years

HEDMAN® Programmable Presets For Multiple Positioning DI-100 on the Cutting Edge!

Easy plate installation, a dater, as shown in this picture, is also available

Dependable Security

- Dual key/lock controls provide maximum control over the imprinting function.
- Dual resettable and non resettable counters counts imprints only when imprinting function is activated via the Imprint Key.
- All metal construction with tamper-proof screws provides total security.
- Executive key/lock prevents unauthorized access to imprint plates.
- Optional Tri-color ink roll provides added security to each impression.

Reliable Accuracy

- Photo alignment feature assures accurate imprint location.
- Bottom feed assures proper sequencing of documents and reloading during operation.

Ease of Operation

- External dial allows for "on the fly" inkroller adjustment.
- Imprint plate loading is made easy by Hedman's exclusive latch-load plate holder.
- Imprint location is easily adjusted while imprinting documents.

Flexibility

- Allows for a variety of imprint designs such as signatures, seals and logos with either the standard or optional oversized imprint plates.
- Imprints can be placed virtually anywhere on the document.
- Easily adapts to any single part document in a wide range of lengths, widths and weights.
- Small footprint fits in any office.

Accessories

- Daters, tri-color ink roller, wide array of imprint plates available for ever application.
