

A SIMPLE, SECURE AND SCALABLE SOLUTION FOR ORGANIZATIONS.

Spend less time and money on your check disbursement process and improve security with Wycom Enterprise – a superior check signing, MICR laser check printing and archiving solution.

FEATURE-RICH AND FLEXIBLE

Wycom Enterprise provides all of the check signing, printing and archiving elements your organization needs in a single solution:

- Multiple network printer support (laser & dot matrix)
- Secure forgery-resistant check amount graphics
- Password-restricted browser-based administrator panel for easy, efficient administration
- Ability to automatically suppress signatures at pre-designated amounts
- Ability to archive non-negotiable PDF check images for easy storage and retrieval
- Printing on blank secure check stock for increased security and cost savings
- Purchase printer licenses as needed

EASY INSTALLATION

Your Wycom Enterprise solution is programmed to your exact requirements. There's no new software to learn and all updates and programming changes are done online, with no downtime. Just connect to your network, set up secure log-ins for authorized users, and you're ready to go.

CHOOSE VIRTUAL OR HARDWARE

Wycom Enterprise is available in either a secure virtual format or a secure hardware format.

UNCOMPLICATED ADMINISTRATION

Our secure browser-based administrator panel makes Wycom Enterprise management a breeze. New users, new forms, new programming and all future changes are easily administered!

SECURE CHECK SIGNING

You can securely sign and protect your pre-printed checks as they are printed on your printer.

MICR CHECK PRINTING

Eliminate pre-printed checks and print to blank secure check stock on network printers. With centralized control, your digital check forms and signatures are secure within your Wycom Enterprise solution!

WYCOM ENTERPRISE SPECIFICATIONS

CHECK SIGNING FEATURES

- Multiple printer support available
- Provides centralized, secure laser check printing and/or check signing
- Built-in logical print server
- Browser-based log-in and administrator panel
- Able to archive non-negotiable PDF check images for easy storage and retrieval
- Uses secure blank check stock (with MICR check printing option) or pre-printed check stock
- Automatically prints and signs checks in a single pass
- Allows up to three (3) signatures per check
- Signature titles and backgrounds available
- Allows optional protected amount-only printing (when you do not want a signature)
- Allows audit count of signed checks, voided checks, or all checks
- Supports unlimited accounts (e.g., share draft, loan, cashier's check, money order, accounts payable, purchase order, etc.)
- Uses secure user log-in for enhanced security
- Suppresses signatures for checks exceeding predetermined dollar amounts
- Adds forgery-resistant protected graphic amount while printing
- Provides amount lines (e.g., add signature at amount, suppress signature at amount, VOID at amount)
- Eliminates signature plates, rubber stamps and mechanical check signers
- Optional conversion from dot matrix check printing to complete laser check printing on secure blank check stock available

MICR LASER CHECK PRINTING ADVANTAGES

- Adds forms, graphics, logos, signatures and MICR information
- PDF image files can be indexed for import into most imaging platforms
- Operates with HP-compatible PCL5 laser printers
- Saves money by using blank secure check stock instead of preprinted check stock
- Eliminates the need for separate pre-printed check stock for each bank account or branch
- Prints a MICR line which meets ABA specifications (with MICR toner cartridge)
- Supports company and bank logos, forms, and graphics
- Secure blank check stock can be pulled from alternate trays (e.g., teller checks vs. starter checks)
- Able to archive non-negotiable PDF check images for easy storage and retrieval
- Prints check numbers (even for customers who do not send check numbers)
- Check numbers are always in sequence
- No checks to void when printer jams
- Auto-sense feature automatically recognizes which check form to print

WYCOM ENTERPRISE INCLUDES

- Multiple check formats available
- Redundancy option available for disaster recovery

COMPATIBILITY

- No computer hardware or software changes required
- 10/100BaseT Ethernet, USB
- Print server supports NetBios, LPR/LPD and Direct TCP (Raw 9100) networking protocols
- Works with any HP-compatible laser printer supporting PCL5

IMAGE ARCHIVING INCLUDES

- Creates and archives non-negotiable PDF check images for storage and retrieval
- Works with MICR Laser Check Printing or Dot Matrix to Laser Conversion (dot matrix output not supported)
- Requires Windows 2000 (or newer) PC
- Data output must be PCL5 compatible

Additional signatures, custom logo prefixes, applications and custom programming available for added fees.
