Counting coins by hand can be as much work as earning them. If your business involves the preparation of coin deposits or balancing coin receipts, there is a better way - the MAG II 100 Series Coin Sorters.

The 100 Series Coin Sorters count and sort 5 coin denominations at approximately 600 coins per minute. That's many times faster than you can do it by hand and 50% faster than most older mechanical methods. The MAG II 100 Series offers outstanding price/performance, ease of use, and low maintenance.

## Save big bucks counting small change (and your sanity too)!

MAG II 100 Series products help you take the big investment out of processing small change, without sacrificing quality, accuracy, or your sanity.

**MAG II**  
100 SERIES

# MAG II™

## 100 SERIES

### COIN SORTERS

49.5 cm (W) x 28.6 cm (D) x 36.2 cm (H)

Net Weight:

46 lbs. (51 lbs. boxed)

21 kgs. (23 kgs. boxed)

Power:

120VAC 60Hz

(FEATURES AND SPECIFICATIONS ARE SUBJECT TO CHANGE)

The Model 100 offers sophisticated electronics, automatic motor shut-off, a large capacity inspection tray, and a compact footprint. Batch subtotals and grand totals are accumulated for each of the five coin denominations. The Model 110 offers several more advanced features including memory back-up, half and full bag stops, drawer full and jam detection, printer interface port and RS232 interface capability.

The 100 Series is flexible. Depending upon your specific application, the unit can be configured as a compact countertop unit with coin drawers, or as a full bagging version complete with a security stand, as shown on the front.

With our RTR (Register Till Refill) option, fast food operators, convenience store managers, grocers, and other retailers can easily count and recirculate coin in cash register tills.

Nationwide Service is available through our authorized dealer network.
