SB series

SB Series are the most intelligent and reliable Banknote Counting Machines which use Image Processing Technology to recognize banknotes and to discriminate between different denominations. With modern design, full graphic LCD and user-friendly interface, SB series provide every operator with more comfortable and efficient working environment. Having a reject pocket, SB series allow operator to perform daily cash-processing job without any interruption. While counting, suspect notes, unrecognized notes and strange notes automatically diverted to the reject pocket assuring operator continuous operation.

SB1000⊕

[Features]

- **Currency Discrimination Counter**
  with enhanced Image Pattern Recognition Technology

- **Multiple Currencies Capability (Option)**
  can be configured with up to 5 currencies

- **Various Operating Modes**
  Mixed / Single / Sort / Face / Orient / Count / (SRL)
